“Deepening the Malaysian Capital Market – Challenges and Opportunities”

This annual series of Malaysian Capital Market Summit has been recognised as a leading high-level Forum focusing specifically on the challenges and prospects facing the Capital Market. Held towards the end of the year, it is also a useful platform to assess the trends and key issues and outlook of the Capital Market in the coming year. It has been a high level gathering bringing together market players, stockbrokers, foreign investors and investment houses and research analysts to take stock of the Malaysian market. It provides a healthy interchange of views and high level dialogue between market makers and industry players with regulators and policy makers. The Summit provides a meeting of minds to feel the pulse of the market and the economy which the market is an important barometer.

This year's Capital Market Summit will meet amidst an improving market and economic landscape. The robust GDP growth in the 1st and 2nd quarters of 2017 underpins the buoyancy of the Malaysian economy. Hence, this year's Capital Market Summit will address the issue of global and regional economic and market trends, corporate governance, wealth management and the growing importance of ESG and Fintech. Measures taken by the Government in the 2018 Budget will address these key issues and challenges. The Summit will therefore enable summit delegates to discuss and evaluate the impact of the upcoming Budget on the capital market.
